MAGNOLIA WATER TOWN HALL

EDEN ISLES

ABOUT THE EDEN ISLES WATER SYSTEM

This is a status of the condition of the Eden Isles Water System at the time of Magnolia Water's purchase of the system.

- The Eden Isles water system was built in 1980, and the wastewater system was built in 1974. There was little or no maintenance done to the system throughout the last 30-40 years.
- The system was operated by Coast Waterworks and was consistently non-compliant with state and federal regulations.
- Gas chlorination cylinders were in dilapidated condition and had no leak detection equipment, posing a safety hazard to the area.
- Electrical issues persisted at the water plant increasing the possibility of outages that lead to boil water advisories.
- Sewage lift stations designed to move wastewater from lower to higher elevation were in disrepair and required replacement.

MAGNOLIA WATER'S PROPOSED SOLUTION

- Magnolia Water, a subsidiary of Central States Water Resources, purchased the deficient and neglected Eden Isles water and wastewater systems and proposed a plan to the Louisiana Public Service Commission to rebuild and/or refurbish the aging infrastructure and maintain the system to the highest water quality standards.
- Magnolia Water has completely rebuilt 22 lift stations to ensure that wastewater is treated and purified prior to being discharged back into the environment.
- Magnolia Water has installed Supervisory Control Data Acquisition (SCADA) software on lift stations to monitor remotely the actions of each station, allowing them to notify crews for 24/7 response if required.
- Magnolia Water is replacing the gas chlorination system with a safer, liquid chlorination process for increased reliability and protection of customers. This is an ongoing project involving the installation of filters that will eliminate the naturally occurring tannins in the water. The liquid chlorine will also lower the level of disinfection bi-products (DBPs) which can be a health hazard.
- $\cdot \quad \text{The system's electrical system and blowers were damaged in Hurricane Ida and now have been rebuilt.}$
- Steel repairs have been made at the wastewater plant to increase safety and reliability.

Magnolia has and will invest millions to provide the residents of Eden Isles with a water and wastewater system that is dependable and produces high quality drinking water.

Questions or concerns regarding your water system can be managed by our Customer Support Team at 1-855-643-8152 or support@magnoliawateruoc.com.

Dear Eden Isle Customer,

Magnolia Water is proud to continue providing you and your community with safe, reliable, and environmentally responsible water and wastewater utility services. We are writing to provide an update regarding our work in your community related to the drinking water system.

Over the course of the past several months, Magnolia Water has worked to change the disinfection treatment method from a free chlorine system to a chloramine system. Although the chloramine system has been able to meet all drinking water compliance standards for health and safety, it has resulted in some customers receiving discolored drinking water. Magnolia Water understands that its customers expect their drinking water to be both safe and clear.

With that in mind, after communicating with the Louisana Department of Health, Magnolia Water's licensed operators have begun the process of switching back to a free chlorine system. This work is expected to be completed by the end of day on Monday, March 21, 2022. This should result in clearer drinking water over the course of the week, as the free-chlorine treated water circulates throughout the distribution system. At this time, customers do not need to take any action related to this disinfection method changeout.

We thank you for your continued patience and understanding as we work to improve your water system for generations to come. If you have any questions about this notice, please do not hesitate to contact Customer Support at 1-855-643-8152 or at support@magnoliawateruoc.com.

Sincerely,

Magnolia Water Utility Operating Company

2021 Cross-connection Prevention Customer Notification

Magnolia Water Utility Operating Company (Magnolia Water) is committed to bringing you safe, reliable water services today, and every day, 365 days a year. As part of our commitment, and to ensure the continued safety of the water supply, we are sending you this letter to inform you of our Cross-Connection Prevention Policy.

The U.S. Environmental Protection Agency (EPA) 40 CFR 141 and the Louisiana Administrative Code (LAC) Title 51:XII and Title 17:I require public water suppliers to protect their water systems from cross-connections and prevent backflow situation by using an approved Cross-Connection Control Policy (CCCP).

In accordance with the Louisiana Administrative Code (LAC) Title 51, Part XIV of the Plumbing Code, the following list identifies common examples which require backflow prevention and establish the required type of backflow prevention device assembly:

Air Gap	Reduced Pressure Principle Backflow Prevention Assembly		
Fire Protection Sprinkler System utilizing non-potable water as an alternative or primary source of water	Hospitals, Out-Patient Surgical Facilities, Renal Dialysis Facilities, Veterinary Clinics		
Pressure Vacuum Breaker Assembly/ Spill Resistant Vacuum Breaker Assembly	2. Funeral Homes, Mortuaries		
Irrigation/Lawn Sprinkler Systems	3. Car Wash Systems		
Double Check Valve Assembly	4. Sewage Facilities		
	5. Chemical or Petroleum Processing Plants		
Fire Protection/Sprinkler Systems (a detector type double check valve assembly is recommended on unmetered fire lines)	6. Animal/Poultry Feedlots or Brooding Facilities		
	7. Meat Processing Plants		
2. Two residential dwelling units served by a master meter, unless both	8. Metal Plating Plants		
units are located on a parcel or contiguous parcels of land having the same ownership and neither unit is used for commercial purposes. As	9. Food Processing Plants, Beverage Processing Plants		
used herein, the term "commercial purposes" means any use other	10. Fire Protection/Sprinkler Systems using antifreeze in such system (a		
than residential.	detector type assembly is recommended on unmetered fire lines)		
3. Three or more residential dwelling units served by a master meter	11. Irrigation/Lawn Sprinkler Systems with Fertilizer Injection		
Multistoried Office/Commercial Buildings (over 3 floors)	12. Marinas/Docks		
	13. Radiator Shops		
5. Jails, Prisons, and Other Places of Detention or Incarceration	14. Commercial Pesticide/Herbicide Application		
	15. Photo/X-ray/Film Processing Laboratories		
	16. Multiple Commercial Units served by a master meter		
	17. Any type of occupancy type or any other facility having one or more		
	Single-walled Heat Exchangers which uses any chemical, additive, or		
	corrosion inhibitor, etc., in the heating or cooling medium		
	18. Any type of occupancy type or any other facility having one or more		
	Double-walled Heat Exchangers which use any chemical, additive, or		
	corrosion inhibitor, etc., in the heating or cooling medium and which		
	does not have a path to atmosphere with a readily visible discharge		
	19. Premises where access/entry is prohibited		

Customers are responsible, at their own cost, of having the appropriate type of backflow prevention device installed on their service line and for having the device inspected annually by a Louisiana certified tester. A list of Louisiana certified testers can be found online by visiting the following website: https://ldh.la.gov/assets/oph/Center-EH/engineering/CCC/LA Approved General Testers.pdf.

Please be advised that failure to comply with any terms of the CCCP, willfully or unintentionally, may result in termination of water services and/or legal actions against the customer.

If applicable, please submit a copy of the device inspection report to Magnolia Water within 30 days of receiving this letter. Device inspection reports may be sent by mail or email to:

> Magnolia Water Utility Operating Company 1650 Des Peres Road, Suite 303 St. Louis, MO 63131 env.comp@cswrgroup.com

We appreciate your cooperation in protecting the water supply. If you have any questions regarding this notice or its applicability to you, please contact our Environmental Compliance Unit at (314) 736-4672 or env.comp@cswrgroup.com.

Sincerely,

Magnolia Water Utility Operating Company

Dear Magnolia Water Customer,

Magnolia Water Utility Operating Company is proud to continue pursuing our mission of providing safe, reliable, and environmentally responsible water and wastewater resources to all our customers across the state of Louisiana. We are writing to provide an update regarding the increase to our water and sewer service rates which is being phased in over a three-month period, with the previous rates increasing each month by one-third of the approved amount, beginning with the bills covering December service enclosed with this letter.

There is also a credit being applied to effectively reduce the amount of rate increase to one-third of its eventual size. On your bill covering services rendered in the month of January, this credit will effectively reduce the amount to two-thirds of its final size. Then, from February onward, your bills will reflect the full amount of the rate increase approved by the Louisiana Public Service Commission. Below you can review the tiered structure of our new water and sewer rates, and on the backside of this page you can find a list of service areas that indicate which tier you and your community are in.

	<u>Water Rates</u> Service Galions Included Per Addition			
Tier	Meter Size	Charge	in Service Charge	1,000 Gallons
	5/8" & 3/4"	\$15.84	2,000	\$2.50
	1"	\$19.80	2,000	\$2.50
1	1.5"	\$79.20	2,000	\$2.50
	2" or Greater	\$126.72	2,000	\$2.50
	No Meter	\$23.68	(flat rate per unit)	
2	5/8" & 3/4"	\$31.69	2,000	\$4.00
	1"	\$39.62	2,000	\$4.00
	1.5"	\$158.42	2,000	\$4.00
	2" or Greater	\$253.52	2,000	\$4.00
	No Meter	\$47.38	(flat rate per unit)	
3	5/8" & 3/4"	\$8.50	0	\$2.50
	1"	\$10.62	0	\$2.50
	1.5"	\$42.50	0	\$2.50
	2" or Greater	\$68.00	0	\$2.50

Tier	Class	RATES
1	Residential	\$27.83
1	Commercial	\$111.32
2	Residential	\$55.66
2	Commercial	\$222.64
3	Residential	\$55.66
