Subject: Progress?

I am eagerly waiting for the parish to install the speed detection machine. I am told it is scheduled soon.

I am waiting for a response to the request for the canes near the second curve to be cut. If anyone in our neighborhood is willing to help, my husband said that he will help. In the meantime, the problem of not having a clear view still exists.

The election is fast approaching, Oct. 12. Please remember our own Mary Dubuisson. Mary, we need some signs. Mike Cooper came to visit. I was quite impressed. He plans to have a personal aid to assist our side of the parish. He understands the needs our area seeks to have remedied. If anyone wants signs for either Mike Cooper or Sheriff Randy Smith, please let me know.

I have addressed the ridiculous situation we have at the entrance/exit of I10. I'm told that it is a work in progress. This wip is nothing that it was proposed to be. The safety factor has decreased. the confusion has increased. Travel after dark is scary. We'll have to work on this one.

Our signs have been ordered. Notice the Neighborhood Watch signs. If you want to get involved in this program, call Naomie Hess at 985-643-7020 or send a message to MICO.

The next levee board meeting is Wed. Sept. 18 at Koop Dr. Money has been sent from Congress. Let's show up to make sure it is spent here.

Please tidy up lawns and gardens. I know the heat has taken its toll, but we should be getting some relief soon.

The covenants committee will turn in their work by Sept. 20. The board will review the work and it will be presented at our next meeting the last Wednesday in October.
