

September 7, 2021

Dear Residents,

The parish has informed me that it will be picking up the piles of debris. Those piles should be separated:

first pile - anything biodegradable/ trees, branches, bushes

second pile - other than biodegradable/ tin, sheetrock, etc.

third pile - electronics, refrigerators, stoves, etc.

The piles should NOT be touching each other.

The piles should NOT be near mail boxes or service areas like telephone, or water meter.

For more information go to St. Tammany Parish Government <STPGOV.ORG>. There is no printed schedule for the pickup. There is no order to the pickup.

Don't forget out Prayer Vigil, Thursday September 16, 7:00 P.M., at the Triangle (median). The service will be something to remember. The grounds will be sprayed. Ice water is available at no cost, and candles with holders will be available at no cost. If you choose to bring a chair, please do so.

I have not heard any more on the boil water issue. I would continue to boil until I hear something different. Remember that we can bathe in the water, but don't drink it.

Bonnie
